PHOENIX BASEBALL TEAM

It Will Be Ready for Real Business in
Ten Days.

It is probable that the Phoenix baseball association team now in process of formation, will get itself ready for business and begin its career of glory in Tucson on the 17th, playing a two days' engagement with the Grays. The Grays have been in communication with Manager Taffe and promise to let him know today if they will be ready for the slaughter by that time.

The Phoenix players have been practicing every afternoon this week and are getting in good form, some new men showing up in good shape. Jack Myers, a third baseman and catcher referred to yesterday, and who is now in Tucson, will be here on Friday and join the aggregation. Haynes, who has been here some time, is showing up well in the field. Durham is another new comer who has played ball in his day and who knows what to do when he is put in the box. He has been practicing with the team and is greatly enthused. It is also expected that Byron Hartwell, who was one of the strong men in the team some years ago, will again get in the harness. He was a real ball player once with the California league and it is not believed his good right arm has yet lost its cunning. If it has it will find it with

practice. Then there are Loman, Sullivan, Avery, Winsor and others of the home boys who have nothing in their past baseball records to be ashamed of and who are yet young enough to hope for acquiring even more skill. Carroll will also be here in another week and his good record is known of all men in the Arizona baseball world.

BURNT LEATHER WORK

A Beautiful Collection at Balke's Big
Curio Store.

The business of preparing burnt, painted and applied leather goods for the market has grown to be an important art in which there is great opportunity for the development of skill. It has not been very long since the beginning of this form of art.

There is the greatest collection of work of this kind at Balke's Big Curio store ever seen in the southwest, or perhaps anywhere else. There are elk, Indian heads, bronco busters and a great many other designs, some of them burnt, others painted, and still others appliqued.

One of the handsomest and most valuable in point of historic interest is that of the San Xavier Mission, which is faithfully and beautifully reproduced. This old building is one of the most interesting in America, as it is one of the oldest. It is almost coincident with the establishment of civil-

ization on the western continent. There will be a printed history of this ancient structure given away with each of the designs. It should be mentioned that these come in pillows as do most of the other designs, though some of them are in table mats and hangers. Then there are applied skins for the table mats and hangers. These consist for the most part of the poinsettia flower cut out of silk velvet and pasted on the skins by a specially prepared cement so that the flowers seem to be a part of the skin.

The great number of skins used in burnt or painted leather work are cheap sheep skins, but those at the Big Curio store are Angora goat skins bought by Mr. Balke from the Navajo Indians, the greatest raisers of the goats in America. The skins taken from this reservation have been sent to San Francisco to be especially dressed for this kind of work.

These skins come in a great variety of colors and all are beautiful. The table mats and pillows are cut for the purposes for which they are intended, but the hangers come in the whole skin with the design burnt, painted or appliqued on it. This collection is well worth seeing for the beauty of it even by those who may not be intending to buy.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only catarrh cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

HOW ONE THOUSAND DOLLARS
MADE A MILLION.

Mr. Vanderbilt Tells an Interesting
Story of Fabulous Profits.

New York, Dec. 7.—A novel booklet is creating a sensation in financial circles here, and Wall street is deeply interested in it, particularly as it is being circulated by W. G. Vanderbilt. He tells how he made a million dollars by investing a thousand and the story is intensely interesting.

Mr. Vanderbilt was interviewed at his offices in No. 100 William street, New York, and stated he was pleased that his booklet had been so well received. He said: "I met so many people who were groping in the dark about financial matters I decided to publish some of the things I have learned about business, and send it out as a tribute to my personal friends. But, dear me, my friends told everybody about it, and my mail is flooded with requests for the booklet. Therefore, I have decided that I can do nothing better for my fellow-man than to send a copy of it to any one who will write to me at No. 100 William street."

"Do you intend to distribute these free?"
"Certainly," he responded, "because I know no one will be interested in the matter except those who have saved enough money and want to know how to make their savings earn more than simple interest, hence I will be doing the best service for those who need it most, and that is the real essence of true philanthropy. I would like to have applicants for this book write me fully and I will be pleased to send any one a copy."

At least a score of bankers and financial men, who were interviewed subsequently, all agreed that Mr. Vanderbilt's book should be in everybody's hands who desired to improve their condition financially.

Melzer has just received a carload of New York apple cider. Patrons visiting the store should ask to see it.

Dr. L. M. Swikerath, the optician, will be out of town until Wednesday morning, December 14. If your eyes trouble you or if you need glasses wait until he returns.

MR. HAMILTON, THE PIANO
Tuner is in the city for tuning. Orders may be left at Redwill's or Antain's.

Charles Gtiner has moved his bicycle shop from north Center street to 53 north First avenue, Depew's old stand.

NO MAN

Wants to Toss Recklessly
good money for bad returns,
and as most men are anxious
to look right before the world,
they should seek to get the
BEST for the LEAST. If you
can save money by Sensible
buying, you are not doing the

square thing by yourself to toss it recklessly over-
board for less than value received. Our \$10, \$12.50
and \$15 Suits are not only made of fine fabrics,
tested materials and enviable style, but they pos-
sess all the hand-work that can be put into them
for the money. We venture to say that better val-
ues cannot be given. Those who have bought suits
of this class from us before, always come back to
us the following season, frequently bringing a
friend. Your particular size is waiting on our
tables for you to wear it away. Instantaneous fit,
and a quality and style that make you wonder how
it can be done for so little money.

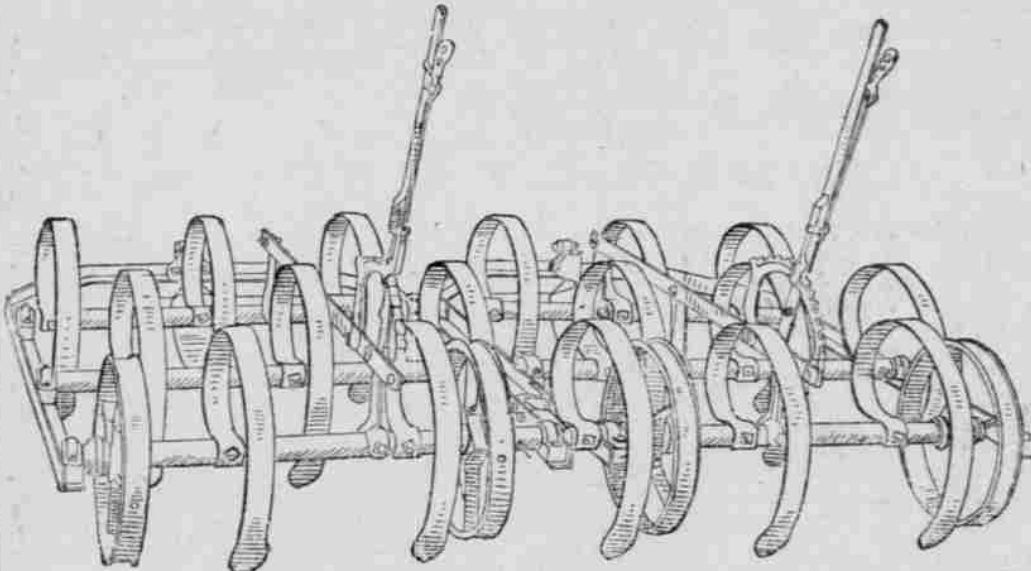

\$10. \$12.50 and \$15.

Brown

The shade of the season is brown,
and to be inside fashion's realm
your wardrobe must contain some
garment of this popular shade.

Our ambition has been to collect
the best showing of brown wear-
ables to be seen in Phoenix, and
we'll leave it to you how well we
have succeeded when you come in.

Samples for the asking.

MOHAIR SICILLIANS

Although our dress goods stock
contains hundreds of weaves, there
is none so much in demand as the
cloth that doesn't need brushing—
Sicilian.

Being of a hard twisted thread, it
consequently has no nap to catch
the dust, therefore it is the ideal
fabric for Phoenix, where the dust
almost worries the life out of some
women, who are continually brush-
ing. Mostly all our Sicillians are
made by Priestley and are as stand-
ard in quality as the black goods
which made him famous.

All colors are here, and all qual-
ities as well, so you will be sure to
find something you like among
them.

Just try a Sicilian for that new
skirt, or suit. You'll like it, as it
sheds the dust as a duck's back
sheds water.

BLUE SEAL BLACK TAFFETAS

We have had the agency for this
famous taffeta about three years
now, and the people who have used
the most of it are the people who
will testify in strongest terms as to
its general goodness.

The silk is an absolutely pure dye
silk and contains absolutely no
chemical filling or "loading" (as
silk men call it), therefore 'twill out-
wear any of those flashy imitations
that are sometimes offered you as
"just as good."

Of course, we have silks as cheap
as 75c a yard, which are marked
"wear guaranteed," but remember
there is only one Blue Seal which
has the words, "Blue Seal guaran-
teed" woven in the selvage.

That is the mark to look for when
you buy black taffeta silk, as it in-
sures you against any possible loss.

If this silk should ever split or
snack, there is no argument about
it, don't hesitate, just come here
and get your money back.

One quality everywhere.

27 inches wide—\$1.25.
